Pursuant to Standing Order M10-468, electronic devices such as cellphones, laptops, and tablets are not permitted during proceedings before this Court. Electronic devices are typically stored with court security before attorneys may proceed into the courthouse.

Under exceptional circumstances, however, an attorney may seek permission from Judge Lehrburger to bring an electronic device on a particular occasion when doing so would advance the proceedings before the Court. In such an event, an attorney may fill out the "Fillable Form for Electronic Devices General Purpose," available on the Southern District's form database at <https://nysd.uscourts.gov/sites/default/files/2018-06/Fillable%20Form%20for%20Electronic%20Devices%20General%20Purpose%20.pdf>.

The completed form should be emailed to chambers at the address above, and Chambers will then send the order to the District Executive's Office, which will be transmitted to court security.
